

TROUBLESHOOTING FOR ENTERING EBOOK ACTIVATION CODE

If for whatever reason, after you have purchased an ebook, you cannot access it by entering the activation code that was emailed to you, please follow the below troubleshooting steps:

1. Under the book that you have purchased, select Download Free Sample Version.
2. Select Run, and then after it downloads you'll get a screen that says "the publisher cannot be verified." Select Run again.
3. The sample ebook will appear. In the top right corner you'll see an orange button that says Buy This Ebook Now. Select that. Even though you have already purchased it, it will not charge you again.
4. A paypal screen will appear. Click out of that screen by selecting the X in the top right corner of the screen.
5. The box asking you for the activation code will appear. Enter in your activation code and the complete version of the ebook will appear.
